

Boat Insurance and Car and Trailer Transport. Sept 2019

Can we remind members that the Club has insurance for Club boats only in the club house. If there was a fire or break in etc at the club your personal boats are NOT covered. This has always been the case.

The same applies to transport on the trailer or on other people's cars.

Boats and personal paddles are **not** covered by the club insurance or trailer insurance. This applies to us and also the British Canoeing trailers and other members cars etc.

We accept no liability for any damage caused to equipment and therefore additional insurance should be arranged by paddlers to cover their own boats and paddles.

Our recommended insurance brokers are Towergate. You can call them on 0344 892 1318 (state you are a British Canoeing member) and they will provide a quote for you based on what cover and the length of cover you require. You can do this when you renew your BC membership.

If you ask other people to transport your boats please make sure you have the insurance in place. Charges for the trailer are for petrol and car costs NOT insurance.

The NCC Committee.
